Biology 2

Project Exhibition

June 1, 2000

East Chapel Hill High School

7:00 – 9:00 p.m.

Thank you for coming to our exhibition of projects. Our biology students have worked hard this year and seem to have enjoyed the process of researching various human health issues. We wish our seniors a wonderful first year of college and we wish our juniors a successful senior year! We thank you the parents and supporters of these students for sharing them with us this year.

Judy Jones and Neeli Lambert
