

### Saint Paul's

#### What do I observe?

- Many people died as a baby.
- Some of the gravestones are old.
- Small and big gravestones.
- Women died young and were buried with their children.
- Gravestones have eroded, some gravestones eroded more.
- have worn off.

- 1775 there were many deaths

- 1776

#### What I infer from observation?

- They had disease with no cureness.

- The weather soaked and shined them

- More important people got bigger gravestones

- deaths from childbirth

- older gravestones have eroded more.

- yellow fever epidemic

- great fire
